T. VENKATA SAI KRISHNA

saikrishnatv23@gmail.com | LinkedIn | +91 99890 27055 | Hyderabad, India

Summary

Highly motivated and detail-oriented Associate Software Engineer with strong skills in Python, Java, web development, and database management. Hands-on experience with machine learning, data preprocessing, and real-world project implementations. Adept at problem-solving, teamwork, and continuous learning. Seeking to contribute to impactful software solutions in a dynamic development environment.

Education

CVR College of Engineering, Hyderabad
Bachelor of Technology in Electronics and Communication Engineering
Dec 2020 – Aug 2024 | CGPA: 9.26/10

Sri Gayathri Junior College, Hyderabad
Intermediate | 2018 – 2020 | Percentage: 93%

Siddhartha High School, Hyderabad
SSC | 2018 | CGPA: 9.7/10

Training

QSpiders Training Hyderabad | ***March 2025 – Present***

- 6-month intensive training in Python Full Stack Development.
- Hands-on experience with Python, Django, HTML, CSS, JavaScript, React and SQL.
- Worked on live project assignments and practical coding tasks.

Work experience

Prasthana Software Solutions, Hyderabad | ***Jan 2026 – Mar 2026***

- Django Developer Intern
- Completed a 2-month internship working with the Django framework for web application development.
- Worked with HTML, CSS, JavaScript, and Bootstrap to integrate frontend with Django backend.
- Built and tested RESTful APIs and implemented CRUD operations for database-driven applications.

- Collaborated with the development team using Git for version control and project management.
  Work Experience

Projects

AIR QUALITY INDEX PREDICTION USING MACHINE LEARNING

- Collected and cleaned historical air quality datasets from open sources.
- Performed data preprocessing steps including handling missing values, normalization, and feature engineering
- Used **Python**, **Pandas**, and **Scikit-learn** to implement regression models such as Linear Regression, Random Forest, and Gradient Boosting.
- Evaluated model performance using MAE, RMSE, and R^2 metrics; improved accuracy by tuning hyperparameters and Visualized AQI predictions and model comparisons using **Matplotlib** and **Seaborn**.

ECOMMERCE WESITE USING Django

- Built full-stack eCommerce app with authentication, cart, and payment integration.
- Designed RESTful APIs and implemented MVC architecture..
- Integrated Stripe for secure payments and admin panel for product management

E-COMMERCE WEBSITE

- Designed and developed a responsive e-commerce website for shoe shopping with a clean UI and engaging user experience.
- Implemented features such as product listing, category-based browsing, product detail pages, and interactive shopping cart using **JavaScript**.
- Utilized **CSS animations and transitions** to enhance the user interface and improve customer engagement.

Technical Skills

- **Programming Languages:** Python, Data Structures & Algorithms (Python),ruby
- **Frontend:** HTML, CSS, Java Script, React.Js, Tailwindcss, Bootstrap
- **Backend Frameworks:** Django,Flask, RESTful API development (CRUD operations),Rails
- **Data Analysis** : SQL , MS EXCEL
- **Databases & ORM** : PostgreSQL, MySQL, SQLAlchemy
- **Software Tools** : MS Office, Git, VS Code, Jupyter Notebook
- **Additional Skills** : Report Writing

Certifications

- **Python (Intermediate)** – Hacker Rank, Leet code 120+ problems solved
- **Java (Basic)** – Hacker Rank
- **AMCAT – Programming & Aptitude** (Scored 83%, Top 17% Nationwide)
- **Co-Cubes** – Programming & Aptitude

Hobbies and Interests

- Playing cricket and Badminton

- Listening Music
- watching movies
- Reading Newspaper

Languages

Telugu: First Language
